EXPERIENCE

2023 – Present
WEB DEVELOPER, Website Angels
- Built websites using the in-house CMS and resolved issues of existing websites built with legacy versions.
- Developed missing frontends, APIs and UX features of an Express with React app to manage Shopify cart behaviour.

2019 – Present
ACCOUNTS & TECHNICAL SERVICES, Divers Group
- Assisted the accountant with data entry, invoicing, payroll and reconciliations. Built automations with Xero's API where applicable.
- Initiated a dynamic web app with Laravel to order and track inventory for clients.
- Resolved web application issues based on external and internal reports.
- Presented development progress and researched future directions for stakeholders.
- Participated in the ICT asset management process, including on-site installation projects and decommissioning ICT equipment.

2018 – 2022
CATERING ASSOCIATE, Compass Group (Auckland Hospital)
- Served food and beverages that are suitable and safe for patients to eat.
- Answered questions about the menu and made recommendations when appropriate.
